

PE Ultra HD Ast 2000x1000x15 mm svart

Artikelnr P1400176

● Beständig ● Delvis beständig ● Ej beständig

| Kemikalie                             | Koncentration | Temp.  | Beständighet |
|---------------------------------------|---------------|--------|--------------|
| 1,4-Dioxane                           | 100%          | 20 °C  | ●            |
| 2-Hydroxypropionic Acid               | 90%           | 20 °C  | ●            |
| Acetaldehyde                          | -             | 20 °C  | ●            |
| Acetic Acid                           | 100%          | 20 °C  | ●            |
| Acetic acid                           | 3%            | 100 °C | ●            |
| Acetic acid                           | 3% w/w        | 20 °C  | ●            |
| Acetic acid                           | 100%          | 20 °C  | ●            |
| Acetic acid                           | 3%            | 100 °C | ●            |
| Acetic acid                           | 3%            | 100 °C | ●            |
| Acetic acid, aqueous                  | 70%           | 20 °C  | ●            |
| Acetic anhydride                      | -             | 20 °C  | ●            |
| Acetone                               | -             | 20 °C  | ●            |
| Acetone                               | 100%          | 20 °C  | ●            |
| Acronal dispersions                   | -             | 20 °C  | ●            |
| Acrylonitrile                         | -             | 20 °C  | ●            |
| Allyl acetate                         | -             | 20 °C  | ●            |
| Allyl alcohol                         | 96%           | 20 °C  | ●            |
| Allyl chloride                        | -             | 20 °C  | ●            |
| Aluminium chloride, aqueous           | any           | 20 °C  | ●            |
| Aluminium chloride, solid             | -             | 20 °C  | ●            |
| Aluminium fluoride                    | Conc.         | 20 °C  | ●            |
| Aluminium hydroxide                   | -             | 20 °C  | ●            |
| Aluminium metaphosphate               | -             | 20 °C  | ●            |
| Aluminium sulphate, aqueous saturated | -             | 20 °C  | ●            |
| Aluminium sulphate, solid             | -             | 20 °C  | ●            |
| Ammonia                               | concentrated  | 20 °C  | ●            |

| Kemikalie                                | Koncentration     | Temp. | Beständighet |
|------------------------------------------|-------------------|-------|--------------|
| Ammonia, gaseous                         | -                 | 20 °C | ●            |
| Ammonia, liquid                          | -                 | 20 °C | ●            |
| Ammonium Chloride                        | -                 | 20 °C | ●            |
| Amyl Alcohol                             | -                 | 20 °C | ●            |
| Aniline                                  | any               | 20 °C | ●            |
| Anisole                                  | -                 | 20 °C | ●            |
| Apple Juice                              | -                 | 20 °C | ●            |
| Aqua regia                               | -                 | 20 °C | ●            |
| Beer                                     | -                 | 20 °C | ●            |
| Benzaldehyde, aqueous                    | any               | 20 °C | ●            |
| Benzene                                  | -                 | 20 °C | ●            |
| Benzene                                  | technically grade | 20 °C | ●            |
| Benzoic acid, aqueous                    | any               | 20 °C | ●            |
| Benzyl alcohol                           | -                 | 20 °C | ●            |
| Bitumen                                  | -                 | 20 °C | ●            |
| Bleaching Solution                       | 12.5 cl           | 20 °C | ●            |
| Boric Acid                               | 100%              | 20 °C | ●            |
| Brake Fluid                              | -                 | 20 °C | ●            |
| Bromine, liquid                          | 100%              | 20 °C | ●            |
| Butanol, aqueous                         | any               | 20 °C | ●            |
| Butter                                   | -                 | 20 °C | ●            |
| Butyl Acetate                            | -                 | 20 °C | ●            |
| Calcium Chloride                         | -                 | 20 °C | ●            |
| Calcium carbonate                        | -                 | 20 °C | ●            |
| Calcium carbonate                        | -                 | 20 °C | ●            |
| Calcium hypochlorite, aqueous suspension | any               | 20 °C | ●            |
| Camphor                                  | -                 | 20 °C | ●            |
| Carbon Disulfide                         | 100%              | 20 °C | ●            |
| Carbon Tetrachloride                     | -                 | 20 °C | ●            |
| Carbon disulphide                        | -                 | 20 °C | ●            |
| Caustic soda                             | any               | 20 °C | ●            |
| Chlorine (gas)                           | 100%              | 20 °C | ●            |
| Chlorine, liquid                         | -                 | 20 °C | ●            |
| Chloroacetic acid, aqueous               | ≤85%              | 20 °C | ●            |

| Kemikalie                | Koncentration     | Temp.  | Beständighet |
|--------------------------|-------------------|--------|--------------|
| Chlorobenzene            | 100%              | 20 °C  | <div></div>  |
| Chlorobenzene            | -                 | 20 °C  | <div></div>  |
| Chloroform               | technically grade | 20 °C  | <div></div>  |
| Chloroform               | -                 | 20 °C  | <div></div>  |
| Chromosulphuric acid     | -                 | 20 °C  | <div></div>  |
| Cider                    | -                 | 20 °C  | <div></div>  |
| Citric Acid              | 10%               | 20 °C  | <div></div>  |
| Citrus fruit juices      | -                 | 20 °C  | <div></div>  |
| Coconut oil              | -                 | 20 °C  | <div></div>  |
| Cod liver oil            | -                 | 20 °C  | <div></div>  |
| Cresol                   | -                 | 20 °C  | <div></div>  |
| Cresol                   | 100%              | 20 °C  | <div></div>  |
| Cyclohexane              | -                 | 20 °C  | <div></div>  |
| Cyclohexanol             | -                 | 20 °C  | <div></div>  |
| Cyclohexanone            | -                 | 20 °C  | <div></div>  |
| Cyclohexanone            | 100%              | 20 °C  | <div></div>  |
| Cyclohexene              | 100%              | 20 °C  | <div></div>  |
| Detergents               | -                 | 20 °C  | <div></div>  |
| Dibutyl ether            | -                 | 20 °C  | <div></div>  |
| Dibutyl phthalate        | -                 | 20 °C  | <div></div>  |
| Dichloroacetic acid      | -                 | 20 °C  | <div></div>  |
| Dichloroethane           | -                 | 20 °C  | <div></div>  |
| Diesel Fuel              | -                 | 20 °C  | <div></div>  |
| Diesel fuel              | -                 | 20 °C  | <div></div>  |
| Diethylene Oxide         | -                 | 20 °C  | <div></div>  |
| Diglycolic acid, aqueous | 30%               | 20 °C  | <div></div>  |
| Dimethyl formamide       | -                 | 20 °C  | <div></div>  |
| Dimethylamine            | -                 | 20 °C  | <div></div>  |
| Dioxane                  | -                 | 20 °C  | <div></div>  |
| Ethanol                  | 10%               | 100 °C | <div></div>  |
| Ethanol                  | 10%               | 100 °C | <div></div>  |
| Ethanol                  | 10%               | 100 °C | <div></div>  |
| Ethanol                  | 10% v/v           | 20 °C  | <div></div>  |
| Ethyl Acetate            | 100%              | 20 °C  | <div></div>  |

| Kemikalie                                 | Koncentration | Temp. | Beständighet |
|-------------------------------------------|---------------|-------|--------------|
| Ethyl Alcohol                             | 96%           | 20 °C | ●            |
| Ethyl acetate                             | -             | 20 °C | ●            |
| Ethylene Chloride                         | 100%          | 20 °C | ●            |
| Ethylene alcohol                          | 96%           | 20 °C | ●            |
| Ethylene chloride                         | -             | 20 °C | ●            |
| Ethylene diamine                          | -             | 20 °C | ●            |
| Ethylene glycol                           | -             | 20 °C | ●            |
| Ferric chloride, aqueous                  | any           | 20 °C | ●            |
| Ferric nitrate, aqueous saturated         | -             | 20 °C | ●            |
| Ferric sulphate, aqueous saturated        | -             | 20 °C | ●            |
| Ferrous (II) chloride, aqueous saturated  | -             | 20 °C | ●            |
| Ferrous (II) sulfate, aqueous saturated   | -             | 20 °C | ●            |
| Ferrous (III) chloride, aqueous saturated | -             | 20 °C | ●            |
| Ferrous (III) nitrate, aqueous saturated  | -             | 20 °C | ●            |
| Ferrous (III) sulfate, aqueous saturated  | -             | 20 °C | ●            |
| Food Oil                                  | -             | 20 °C | ●            |
| Formaldehyde (aqueous)                    | 40%           | 20 °C | ●            |
| Formaldehyde, aqueous                     | ≤40%          | 20 °C | ●            |
| Formic Acid                               | 10%           | 20 °C | ●            |
| Formic acid, aqueous                      | 85%           | 20 °C | ●            |
| Frigen 12 (Freon 12)                      | 100%          | 20 °C | ●            |
| Frost Protection Agent                    | -             | 20 °C | ●            |
| Fruit juices                              | any           | 20 °C | ●            |
| Fuel (aromatic free)                      | -             | 20 °C | ●            |
| Fuel oil                                  | -             | 20 °C | ●            |
| Furfural                                  | -             | 20 °C | ●            |
| Glycerin, aqueous                         | any           | 20 °C | ●            |
| Glycerine                                 | 100%          | 20 °C | ●            |
| Glycol                                    | 100%          | 20 °C | ●            |
| Glykol, aqueous                           | as supplied   | 20 °C | ●            |
| Glysantin                                 | -             | 20 °C | ●            |
| Heating Oil                               | -             | 20 °C | ●            |
| Heptane                                   | 100%          | 20 °C | ●            |
| Heptane                                   | -             | 20 °C | ●            |

| Kemikalie                           | Koncentration              | Temp. | Beständighet |
