| Aluminium sulphate, aqueous saturated | â€            | 20 Å°C  | Beständig    |
| Aluminium sulphate, solid             | â€            | 20 Å°C  | Beständig    |
| Ammonia                               | concentrated  | 20 Å°C  | Beständig    |
| Ammonia, gaseous                      | â€            | 20 Å°C  | Beständig    |

| Kemikalie                                | Koncentration     | Temp.  | Beskrivning |
|------------------------------------------|-------------------|--------|-------------|
| Ammonia, liquid                          | any               | 20 Â°C | ●           |
| Ammonium Chloride                        | any               | 20 Â°C | ●           |
| Amyl Alcohol                             | any               | 20 Â°C | ●           |
| Aniline                                  | any               | 20 Â°C | ●           |
| Anisole                                  | any               | 20 Â°C | ●           |
| Apple Juice                              | any               | 20 Â°C | ●           |
| Aqua regia                               | any               | 20 Â°C | ●           |
| Beer                                     | any               | 20 Â°C | ●           |
| Benzaldehyde, aqueous                    | any               | 20 Â°C | ●           |
| Benzene                                  | technically grade | 20 Â°C | ●           |
| Benzene                                  | any               | 20 Â°C | ●           |
| Benzoic acid, aqueous                    | any               | 20 Â°C | ●           |
| Benzyl alcohol                           | any               | 20 Â°C | ●           |
| Bitumen                                  | any               | 20 Â°C | ●           |
| Bleaching Solution                       | 12.5 cl           | 20 Â°C | ●           |
| Boric Acid                               | 100%              | 20 Â°C | ●           |
| Brake Fluid                              | any               | 20 Â°C | ●           |
| Bromine, liquid                          | 100%              | 20 Â°C | ●           |
| Butanol, aqueous                         | any               | 20 Â°C | ●           |
| Butter                                   | any               | 20 Â°C | ●           |
| Butyl Acetate                            | any               | 20 Â°C | ●           |
| Calcium Chloride                         | any               | 20 Â°C | ●           |
| Calcium carbonate                        | any               | 20 Â°C | ●           |
| Calcium carbonate                        | any               | 20 Â°C | ●           |
| Calcium hypochlorite, aqueous suspension | any               | 20 Â°C | ●           |
| Camphor                                  | any               | 20 Â°C | ●           |
| Carbon Disulfide                         | 100%              | 20 Â°C | ●           |
| Carbon Tetrachloride                     | any               | 20 Â°C | ●           |
| Carbon disulphide                        | any               | 20 Â°C | ●           |
| Caustic soda                             | any               | 20 Â°C | ●           |
| Chlorine (gas)                           | 100%              | 20 Â°C | ●           |
| Chlorine, liquid                         | any               | 20 Â°C | ●           |
| Chloroacetic acid, aqueous               | any               | 20 Â°C | ●           |
| Chlorobenzene                            | 100%              | 20 Â°C | ●           |
