

Artikelnr P1501238

● Beständigt    ● Delvis beständigt    ● Ej beständigt

| Kemikalie                             | Koncentrasie | Temp. | Bestandigheit |
|---------------------------------------|--------------|-------|---------------|
| 1,4-Dioxane                           | 100          | 20 °C | ●             |
| 2-Hydroxypropionic acid (lactic acid) | 90           | 20 °C | ●             |
| Acetic acid                           | 100          | 20 °C | ●             |
| Acetone                               | 100          | 20 °C | ●             |
| Ammonia                               | â€”          | 20 °C | ●             |
| Ammonium chloride                     | â€”          | 20 °C | ●             |
| Amyl alcohol                          | â€”          | 20 °C | ●             |
| Apple juice                           | â€”          | 20 °C | ●             |
| Benzene                               | â€”          | 20 °C | ●             |
| Boric acid                            | 100          | 20 °C | ●             |
| Brake fluid                           | â€”          | 20 °C | ●             |
| Butyl acetate                         | â€”          | 20 °C | ●             |
| Calcium chloride                      | â€”          | 20 °C | ●             |
| Carbon tetrachloride                  | â€”          | 20 °C | ●             |
| Chlorine (gas)                        | 100          | 20 °C | ●             |
| Chlorobenzene                         | 100          | 20 °C | ●             |
| Chloroform                            | â€”          | 20 °C | ●             |
| Citric acid                           | 10           | 20 °C | ●             |
| Cyclohexanone                         | 100          | 20 °C | ●             |
| Cyclohexene                           | 100          | 20 °C | ●             |
| Diesel                                | â€”          | 20 °C | ●             |
| Diethylene oxide                      | â€”          | 20 °C | ●             |
| Ethyl acetate                         | 100          | 20 °C | ●             |
| Ethyl alcohol (ethanol)               | 96           | 20 °C | ●             |
| Ethylene chloride                     | 100          | 20 °C | ●             |
| Food oil                              | â€”          | 20 °C | ●             |
| Formaldehyde (aqueous)                | 40           | 20 °C | ●             |

| Kemikalie                        |     | Koncentration | Temp. | Best ndighet |
|----------------------------------|-----|---------------|-------|--------------|
| Formic acid                      | 10  | 20   C        |       |              |
| Frost protection agent           |     | 20   C        |       |              |
| Fuel oil                         |     | 20   C        |       |              |
| Fuel, aromatic free              |     | 20   C        |       |              |
| Glycerine                        | 100 | 20   C        |       |              |
| Glycol                           | 100 | 20   C        |       |              |
| Heptane                          | 100 | 20   C        |       |              |
| Hydrochloric acid                | 10  | 20   C        |       |              |
| Hydrochloric acid (concentrated) |     | 20   C        |       |              |
| Hydrofluoric acid                | 40  | 20   C        |       |              |
| Hydrogen peroxide                | 10  | 20   C        |       |              |
| Hydrogen sulfide (aqueous)       |     | 20   C        |       |              |
| Isopropyl alcohol                | 100 | 20   C        |       |              |
| Linseed oil                      |     | 20   C        |       |              |
| Mercurochrome                    |     | 20   C        |       |              |
| Methyl alcohol (methanol)        | 100 | 20   C        |       |              |
| Methyl ethyl ketone (MEK)        | 100 | 20   C        |       |              |
| Methylene chloride               | 100 | 20   C        |       |              |
| Milk                             |     | 20   C        |       |              |
| Mineral oils (aromatic free)     |     | 20   C        |       |              |
| Nitric acid                      | 50  | 20   C        |       |              |
| Nitric acid                      | 10  | 20   C        |       |              |
| Nitrobenzene                     |     | 20   C        |       |              |
| Oxalic acid                      |     | 20   C        |       |              |
| Ozone (gas)                      |     | 20   C        |       |              |
| Paraffin oil                     | 100 | 20   C        |       |              |
| Perchloroethylene                |     | 20   C        |       |              |
| Petroleum                        | 100 | 20   C        |       |              |
| Petroleum ether                  | 100 | 20   C        |       |              |
| Phenol (aqueous)                 | 9   | 20   C        |       |              |
| Phosphoric acid                  | 50  | 20   C        |       |              |
| Potassium hydroxide solution     | 50  | 20   C        |       |              |
| Premium fuel                     |     | 20   C        |       |              |
| Propyl alcohol                   |     | 20   C        |       |              |
| Pyridine                         |     | 20   C        |       |              |
