

# PEEK 180/80x3000 mm beige

Artikelnr P1500402

● Best ndig

● Delvis best ndig

● Ej best ndig

| Kemikalie                             | Koncentration | Temp. | Best ndighet |
|---------------------------------------|---------------|-------|--------------|
| 1,4-Dioxane                           | 100           | 20  C | ●            |
| 2-Hydroxypropionic acid (lactic acid) | 90            | 20  C | ●            |
| Acetic acid                           | 100           | 20  C | ●            |
| Acetone                               | 100           | 20  C | ●            |
| Ammonia                               |               | 20  C | ●            |
| Ammonium chloride                     |               | 20  C | ●            |
| Amyl alcohol                          |               | 20  C | ●            |
| Apple juice                           |               | 20  C | ●            |
| Benzene                               |               | 20  C | ●            |
| Boric acid                            | 100           | 20  C | ●            |
| Brake fluid                           |               | 20  C | ●            |
| Butyl acetate                         |               | 20  C | ●            |
| Calcium chloride                      |               | 20  C | ●            |
| Carbon tetrachloride                  |               | 20  C | ●            |
| Chlorine (gas)                        | 100           | 20  C | ●            |
| Chlorobenzene                         | 100           | 20  C | ●            |
| Chloroform                            |               | 20  C | ●            |
| Citric acid                           | 10            | 20  C | ●            |
| Cyclohexanone                         | 100           | 20  C | ●            |
| Cyclohexene                           | 100           | 20  C | ●            |
| Diesel                                |               | 20  C | ●            |
| Diethylene oxide                      |               | 20  C | ●            |
| Ethyl acetate                         | 100           | 20  C | ●            |
| Ethyl alcohol (ethanol)               | 96            | 20  C | ●            |
| Ethylene chloride                     | 100           | 20  C | ●            |
| Food oil                              |               | 20  C | ●            |
| Formaldehyde (aqueous)                | 40            | 20  C | ●            |

| Kemikalie                        |     | Koncentration | Temp. | Best ndighet |
|----------------------------------|-----|---------------|-------|--------------|
| Formic acid                      | 10  | 20  C         |       |              |
| Frost protection agent           |     | 20  C         |       |              |
| Fuel oil                         |     | 20  C         |       |              |
| Fuel, aromatic free              |     | 20  C         |       |              |
| Glycerine                        | 100 | 20  C         |       |              |
| Glycol                           | 100 | 20  C         |       |              |
| Heptane                          | 100 | 20  C         |       |              |
| Hydrochloric acid                | 10  | 20  C         |       |              |
| Hydrochloric acid (concentrated) |     | 20  C         |       |              |
| Hydrofluoric acid                | 40  | 20  C         |       |              |
| Hydrogen peroxide                | 10  | 20  C         |       |              |
| Hydrogen sulfide (aqueous)       |     | 20  C         |       |              |
| Isopropyl alcohol                | 100 | 20  C         |       |              |
| Linseed oil                      |     | 20  C         |       |              |
| Mercurochrome                    |     | 20  C         |       |              |
| Methyl alcohol (methanol)        | 100 | 20  C         |       |              |
| Methyl ethyl ketone (MEK)        | 100 | 20  C         |       |              |
| Methylene chloride               | 100 | 20  C         |       |              |
| Milk                             |     | 20  C         |       |              |
| Mineral oils (aromatic free)     |     | 20  C         |       |              |
| Nitric acid                      | 10  | 20  C         |       |              |
| Nitric acid                      | 50  | 20  C         |       |              |
| Nitrobenzene                     |     | 20  C         |       |              |
| Oxalic acid                      |     | 20  C         |       |              |
| Ozone (gas)                      |     | 20  C         |       |              |
| Paraffin oil                     | 100 | 20  C         |       |              |
| Perchloroethylene                |     | 20  C         |       |              |
| Petroleum                        | 100 | 20  C         |       |              |
| Petroleum ether                  | 100 | 20  C         |       |              |
| Phenol (aqueous)                 | 9   | 20  C         |       |              |
| Phosphoric acid                  | 50  | 20  C         |       |              |
| Potassium hydroxide solution     | 50  | 20  C         |       |              |
| Premium fuel                     |     | 20  C         |       |              |
| Propyl alcohol                   |     | 20  C         |       |              |
| Pyridine                         |     | 20  C         |       |              |
