

PE-1000 110x1000 mm natur

Artikelnr P1004313

Beständig

Delvis beständig

Ej beständig

| Kemikalie                             | Koncentration | Temp.  | Beständighet |
|---------------------------------------|---------------|--------|--------------|
| 1,4-Dioxane                           | 100           | 20 Å°C | <div></div>  |
| 2-Hydroxypropionic acid (lactic acid) | 90            | 20 Å°C | <div></div>  |
| Acetic acid                           | 100           | 20 Å°C | <div></div>  |
| Acetone                               | 100           | 20 Å°C | <div></div>  |
| Ammonia                               | â€”           | 20 Å°C | <div></div>  |
| Ammonium chloride                     | â€”           | 20 Å°C | <div></div>  |
| Amyl alcohol                          | â€”           | 20 Å°C | <div></div>  |
| Benzene                               | â€”           | 20 Å°C | <div></div>  |
| Boric acid                            | 100           | 20 Å°C | <div></div>  |
| Brake fluid                           | â€”           | 20 Å°C | <div></div>  |
| Butyl acetate                         | â€”           | 20 Å°C | <div></div>  |
| Calcium chloride                      | â€”           | 20 Å°C | <div></div>  |
| Citric acid                           | 10            | 20 Å°C | <div></div>  |
| Cresol                                | â€”           | 20 Å°C | <div></div>  |
| Cyclohexanone                         | 100           | 20 Å°C | <div></div>  |
| Cyclohexene                           | 100           | 20 Å°C | <div></div>  |
| Diesel                                | â€”           | 20 Å°C | <div></div>  |
| Ethyl acetate                         | 100           | 20 Å°C | <div></div>  |
| Ethyl alcohol (ethanol)               | 96            | 20 Å°C | <div></div>  |
| Food oil                              | â€”           | 20 Å°C | <div></div>  |
| Formaldehyde, aqueous                 | 40            | 20 Å°C | <div></div>  |
| Formic acid                           | 10            | 20 Å°C | <div></div>  |
| Frost protection agent                | â€”           | 20 Å°C | <div></div>  |
| Fuel oil                              | â€”           | 20 Å°C | <div></div>  |
| Fuel, aromatic free                   | â€”           | 20 Å°C | <div></div>  |
| Glycerine                             | 100           | 20 Å°C | <div></div>  |
| Glycol                                | 100           | 20 Å°C | <div></div>  |

| Kemikalie                                | Koncentration | Temp.  | Best ndighet |
|------------------------------------------|---------------|--------|--------------|
| Heptane                                  | 100           | 20   C |              |
| Hydrochloric acid                        | 10            | 20   C |              |
| Hydrochloric acid (concentrated)         |               | 20   C |              |
| Hydrogen peroxide                        | 10            | 20   C |              |
| Isopropyl alcohol                        | 100           | 20   C |              |
| Linseed oil                              |               | 20   C |              |
| Mercurochrome                            |               | 20   C |              |
| Methyl alcohol (methanol)                | 100           | 20   C |              |
| Methylene chloride                       | 100           | 20   C |              |
| Milk                                     |               | 20   C |              |
| Mineral oils, aromatic free              |               | 20   C |              |
| Nitric acid                              | 10            | 20   C |              |
| Nitric acid                              | 50            | 20   C |              |
| Nitrobenzene                             |               | 20   C |              |
| Oxalic acid                              |               | 20   C |              |
| Ozone (gas)                              |     0.5 ppm   | 20   C |              |
| Paraffin oil                             | 100           | 20   C |              |
| Perchloroethylene                        |               | 20   C |              |
| Petroleum ether                          | 100           | 20   C |              |
| Phenol, aqueous                          | ca. 9         | 20   C |              |
| Phosphoric acid                          | 50            | 20   C |              |
| Potassium hydroxide solution             | 50            | 20   C |              |
| Premium fuel                             |               | 20   C |              |
| Propyl alcohol                           |               | 20   C |              |
| Silicone oil                             |               | 20   C |              |
| Sodium carbonate, aqueous                |               | 20   C |              |
| Sodium chloride, aqueous                 |               | 20   C |              |
| Sodium hydrogen sulfite                  |               | 20   C |              |
| Sodium hydroxide solution (caustic soda) | 60            | 20   C |              |
| Sodium hydroxide solution (caustic soda) | 15            | 20   C |              |
| Sodium nitrate, aqueous                  |               | 20   C |              |
| Sodium thiosulfate                       |               | 20   C |              |
| Sulphuric acid                           | 96            | 20   C |              |
| Transformer oil                          |               | 20   C |              |
| Vinegar, standard                        | 5 - 10        | 20   C |              |

| Kemikalie |     | Koncentration | Temp.  | Best ndighet |
|-----------|-----|---------------|--------|--------------|
| Water     |     |               | 20   C |              |
| Xylene    |     |               | 20   C |              |
