

# PET ZX 22x1000 mm light grÅ

Artikelnr P1004106

Beständig Delvis beständig Ej beständig

| Kemikalie            | Koncentration | Temp.  | Beständighet |
|----------------------|---------------|--------|--------------|
| 1,4-Dioxane          | 100           | 60 Å°C |              |
| 1,4-Dioxane          | 100           | 20 Å°C |              |
| Acetic acid          | 100           | 20 Å°C |              |
| Acetic acid          | 100           | 60 Å°C |              |
| Acetic acid          | 100%          | 20 Å°C |              |
| Acetone              | 100           | 60 Å°C |              |
| Acetone              | 100           | 20 Å°C |              |
| Ammonia              | conc.         | 60 Å°C |              |
| Ammonia              | conc.         | 20 Å°C |              |
| Apple juice          | â€            | 20 Å°C |              |
| Apple juice          | â€            | 20 Å°C |              |
| Benzene              | â€            | 20 Å°C |              |
| Benzene              | â€            | 60 Å°C |              |
| Bleaching solution   | â€            | 20 Å°C |              |
| Brake fluid          | â€            | 60 Å°C |              |
| Brake fluid          | â€            | 20 Å°C |              |
| Butyl acetate        | â€            | 20 Å°C |              |
| Butyl acetate        | â€            | 60 Å°C |              |
| Calcium chloride     | â€            | 60 Å°C |              |
| Calcium chloride     | â€            | 20 Å°C |              |
| Carbon disulphide    | 100           | 20 Å°C |              |
| Carbon disulphide    | 100           | 60 Å°C |              |
| Carbon tetrachloride | â€            | 20 Å°C |              |
| Carbon tetrachloride | â€            | 60 Å°C |              |
| Carbon tetrachloride | â€            | 20 Å°C |              |
| Chlorobenzene        | 100%          | 20 Å°C |              |
| Chlorobenzene        | 100           | 60 Å°C |              |

| Kemikalie               |      | Koncentration | Temp.  | Best ndighet |

| Kemikalie                        | Koncentrasie | Temp. | Bestandigheit |
|----------------------------------|--------------|-------|---------------|
| Hydrochloric acid                | conc.        | 20 °C | ●             |
| Hydrochloric acid                | 10           | 20 °C | ●             |
| Hydrochloric acid                | conc.        | 60 °C | ●             |
| Hydrochloric acid                | 10           | 60 °C | ●             |
| Hydrochloric acid (concentrated) | conc.        | 20 °C | ●             |
| Hydrofluoric acid                | 40           | 60 °C | ●             |
| Hydrofluoric acid                | 40%          | 20 °C | ●             |
| Hydrofluoric acid                | 40           | 20 °C | ●             |
| Hydrogen peroxide                | 10           | 60 °C | ●             |
| Hydrogen peroxide                | 10           | 20 °C | ●             |
| Hydrogen sulfide, aqueous        | â€”          | 20 °C | ●             |
| Isopropyl alcohol                | 100          | 20 °C | ●             |
| Isopropyl alcohol                | 100          | 60 °C | ●             |
| Isopropyl alcohol                | 100%         | 20 °C | ●             |
| Linseed oil                      | â€”          | 60 °C | ●             |
| Linseed oil                      | â€”          | 20 °C | ●             |
| Mercurochrome                    | â€”          | 20 °C | ●             |
| Methyl alcohol (methanol)        | 100          | 60 °C | ●             |
| Methyl alcohol (methanol)        | 100%         | 20 °C | ●             |
| Methyl alcohol (methanol)        | 100          | 20 °C | ●             |
| Methyl ethyl ketone (MEK)        | 100          | 20 °C | ●             |
| Methyl ethyl ketone (MEK)        | 100          | 60 °C | ●             |
| Methylene chloride               | 100          | 20 °C | ●             |
| Methylene chloride               | 100          | 60 °C | ●             |
| Milk                             | â€”          | 20 °C | ●             |
| Milk                             | â€”          | 60 °C | ●             |
| Mineral oils, aromatic free      | â€”          | 60 °C | ●             |
| Mineral oils, aromatic free      | â€”          | 20 °C | ●             |
| Nitric acid                      | 50           | 60 °C | ●             |
| Nitric acid                      | 10           | 20 °C | ●             |
| Nitric acid                      | 50           | 20 °C | ●             |
| Nitric acid                      | 10%          | 20 °C | ●             |
| Nitric acid                      | 10           | 60 °C | ●             |
| Paraffin oil                     | 100          | 60 °C | ●             |

| Kemikalie                                | Koncentratie | Temp. | Bestandigheid |
|------------------------------------------|--------------|-------|---------------|
| Paraffin oil                             | 100          | 20 °C | ●             |
| Perchloroethylene                        | â€”          | 20 °C | ●             |
| Perchloroethylene                        | â€”          | 60 °C | ●             |
| Petroleum                                | 100          | 20 °C | ●             |
| Petroleum                                | 100%         | 20 °C | ●             |
| Petroleum ether                          | 100          | 20 °C | ●             |
| Petroleum ether                          | 100%         | 20 °C | ●             |
| Petroleum ether                          | 100          | 60 °C | ●             |
| Phenol, aqueous                          | ca.9         | 20 °C | ●             |
| Phosphoric acid                          | 50           | 20 °C | ●             |
| Phosphoric acid                          | 50           | 60 °C | ●             |
| Potassium hydroxide solution             | 50           | 20 °C | ●             |
| Potassium hydroxide solution             | 50           | 60 °C | ●             |
| Premium fuel                             | â€”          | 20 °C | ●             |
| Premium fuel                             | â€”          | 60 °C | ●             |
| Propyl alcohol                           | â€”          | 60 °C | ●             |
| Propyl alcohol                           | â€”          | 20 °C | ●             |
| Silicone oil                             | â€”          | 20 °C | ●             |
| Silicone oil                             | â€”          | 60 °C | ●             |
| Sodium carbonate, aqueous                | â€”          | 60 °C | ●             |
| Sodium carbonate, aqueous                | â€”          | 20 °C | ●             |
| Sodium chloride, aqueous                 | â€”          | 60 °C | ●             |
| Sodium chloride, aqueous                 | â€”          | 20 °C | ●             |
| Sodium hydrogen sulfite                  | â€”          | 20 °C | ●             |
| Sodium hydrogen sulfite                  | â€”          | 60 °C | ●             |
| Sodium hydrogen sulfite                  | â€”          | 20 °C | ●             |
| Sodium hydroxide solution (caustic soda) | 60           | 60 °C | ●             |
| Sodium hydroxide solution (caustic soda) | 60           | 20 °C | ●             |
| Sodium hydroxide solution (caustic soda) | 15           | 20 °C | ●             |
| Sodium hydroxide solution (caustic soda) | 15           | 60 °C | ●             |
| Sodium nitrate, aqueous                  | â€”          | 20 °C | ●             |
