| Kemikalie                        | Koncentration | Temp. | Best ndighet |
|----------------------------------|---------------|-------|--------------|
| 1,4-Dioxane                      | 100           | 20  C | <div></div>  |
| Acetone                          | 100           | 20  C | <div></div>  |
| Ammonia                          |               | 20  C | <div></div>  |
| Ammonium chloride                |               | 20  C | <div></div>  |
| Benzene                          |               | 20  C | <div></div>  |
| Brake fluid                      |               | 20  C | <div></div>  |
| Butyl acetate                    |               | 20  C | <div></div>  |
| Calcium chloride                 |               | 20  C | <div></div>  |
| Carbon tetrachloride             |               | 20  C | <div></div>  |
| Chlorobenzene                    | 100           | 20  C | <div></div>  |
| Chloroform                       |               | 20  C | <div></div>  |
| Diesel                           |               | 20  C | <div></div>  |
| Diethylene oxide                 |               | 20  C | <div></div>  |
| Ethyl acetate                    | 100           | 20  C | <div></div>  |
| Ethyl alcohol (ethanol)          | 96            | 20  C | <div></div>  |
| Frost protection agent           |               | 20  C | <div></div>  |
| Fuel, aromatic free              |               | 20  C | <div></div>  |
| Glycerine                        | 100           | 20  C | <div></div>  |
| Hydrochloric acid (10%)          | 10            | 20  C | <div></div>  |
| Hydrochloric acid (concentrated) |               | 20  C | <div></div>  |
| Isopropyl alcohol                | 100           | 20  C | <div></div>  |
| Methyl alcohol (methanol)        | 100           | 20  C | <div></div>  |
| Methyl ethyl ketone (MEK)        | 100           | 20  C | <div></div>  |
| Methylene chloride               | 100           | 20  C | <div></div>  |
| Mineral oils (aromatic free)     |               | 20  C | <div></div>  |
| Nitric acid (10%)                | 10            | 20  C | <div></div>  |
| Nitric acid (50%)                | 50            | 20  C | <div></div>  |
