

## Artikelnr P1203065

| Egenskap                                     | Värde            | Enhet     | Standard   |
|----------------------------------------------|------------------|-----------|------------|
| Densidad                                     | 2.1              | g/cm³     | ASTM D1457 |
| Límite de resistencia a la tracción          | 22               | MPa       | ASTM D4894 |
| Módulo de elasticidad (tracción)             | 750              | MPa       | ISO 527    |
| Resistencia a la tensión                     | 18               | MPa       | ASTM D1457 |
| Deformación a la rotura                      | 300              | %         | ASTM D1457 |
| Temperatura de servicio máxima (corto plazo) | 260              | °C        |            |
| Temperatura de funcionamiento máxima         | 260              | °C        |            |
| Temperatura mínima                           | -200             | °C        |            |
| Resistividad volumétrica                     | 10 <sup>17</sup> | Ω·cm      | ASTM D257  |
| Resistencia a la flexión                     | 6                | MPa       | ISO 178    |
| Resistencia al impacto con entalla (Charpy)  | 16               | kJ/m²     | ISO 179    |
| Dureza Shore D                               | 58.5             | ° Shore D | ASTM D1706 |
| Dureza a la presión de bala                  | 45               | MPa       | ISO 2039   |
