| Kemikalie                        | Konsentrasjon     | Temp.  | Beständighet |
|----------------------------------|-------------------|--------|--------------|
| 1,4-Dioxan                       | 100%              | 20 Å°C | ●            |
| 2-Hydroxipropionsyra (mjölksyra) | 90%               | 20 Å°C | ●            |
| Acetaldehyd                      | â€”               | 20 Å°C | ●            |
| Aceton                           | â€”               | 20 Å°C | ●            |
| Aceton                           | 100%              | 20 Å°C | ●            |
| Acronal-dispersioner             | â€”               | 20 Å°C | ●            |
| Akrylonitril                     | â€”               | 20 Å°C | ●            |
| Allylacetat                      | â€”               | 20 Å°C | ●            |
| Allylalkohol                     | 96%               | 20 Å°C | ●            |
| Allylklorid                      | â€”               | 20 Å°C | ●            |
| Aluminiumfluorid                 | Conc.             | 20 Å°C | ●            |
| Aluminiumhydroxid                | â€”               | 20 Å°C | ●            |
| Aluminiumklorid, fast            | â€”               | 20 Å°C | ●            |
| Aluminiumklorid, vattenl.        | any               | 20 Å°C | ●            |
| Aluminiummetafosfat              | â€”               | 20 Å°C | ●            |
| Aluminiumsulfat, fast            | â€”               | 20 Å°C | ●            |
| Aluminiumsulfat, vattenl. mättad | â€”               | 20 Å°C | ●            |
| Ammoniak                         | concentrated      | 20 Å°C | ●            |
| Ammoniak, flytande               | â€”               | 20 Å°C | ●            |
| Ammoniak, gas                    | â€”               | 20 Å°C | ●            |
| Ammoniumklorid                   | â€”               | 20 Å°C | ●            |
| Amylalkohol                      | â€”               | 20 Å°C | ●            |
| Anilin                           | any               | 20 Å°C | ●            |
| Anisol                           | â€”               | 20 Å°C | ●            |
| Bensen                           | â€”               | 20 Å°C | ●            |
| Bensen                           | technically grade | 20 Å°C | ●            |
| Bensin (premium)                 | â€”               | 20 Å°C | ●            |
