

# Platta i PE-500 2000x1000x35 mm rÅllid

Artikelnr P1400465

Beständig

Delvis beständig

Ej beständig

| Kemikalie                        | Koncentration | Temp.  | Beständighet |
|----------------------------------|---------------|--------|--------------|
| 1,4-Dioxan                       | 100%          | 20 Å°C | Beständig    |
| 2-Hydroxypropionic Acid          | 90%           | 20 Å°C | Beständig    |
| Acetaldehyd                      | â€            | 20 Å°C | Beständig    |
| Acetic Acid                      | 100%          | 20 Å°C | Beständig    |
| Aceton                           | â€            | 20 Å°C | Beständig    |
| Aceton                           | 100%          | 20 Å°C | Beständig    |
| Acronal-dispersjoner             | â€            | 20 Å°C | Beständig    |
| Akrylonitril                     | â€            | 20 Å°C | Beständig    |
| Allylacetat                      | â€            | 20 Å°C | Beständig    |
| Allylalkohol                     | 96%           | 20 Å°C | Beständig    |
| Allylklorid                      | â€            | 20 Å°C | Beständig    |
| Aluminiumfluorid                 | Conc.         | 20 Å°C | Beständig    |
| Aluminiumhydroxid                | â€            | 20 Å°C | Beständig    |
| Aluminiumklorid, fast            | â€            | 20 Å°C | Beständig    |
| Aluminiumklorid, vattenl.        | any           | 20 Å°C | Beständig    |
| Aluminiummetafosfat              | â€            | 20 Å°C | Beständig    |
| Aluminiumsulfat, fast            | â€            | 20 Å°C | Beständig    |
| Aluminiumsulfat, vattenl. mÅttad | â€            | 20 Å°C | Beständig    |
| Ammoniak                         | concentrated  | 20 Å°C | Beständig    |
| Ammoniak, flytande               | â€            | 20 Å°C | Beständig    |
| Ammoniak, gas                    | â€            | 20 Å°C | Beständig    |
| Ammonium Chloride                | â€            | 20 Å°C | Beständig    |
| Amyl Alcohol                     | â€            | 20 Å°C | Beständig    |
